If so, please provide the name of the contractor, contract number, a description of the contract scope and the work performed, the contract start and end dates, and the contract costs for the past four years, including base and options value, as well as obligated amount.
- (6) Do contractors process FOIA requests, make determinations, calculate fees, or participate in the FOIA request or response process? If so, please provide the name of the contractor, contract number, a description of the contract scope and the work performed, the contract start and end dates, and the contract costs for the past four years, including base and options value, as well as obligated amount.
