Dear Deputy Director Brandon:

We write to request information regarding the alleged theft of approximately 600 firearm parts from an ATF facility in Martinsburg, West Virginia.

It is our understanding that the Martinsburg facility, which is charged with the destruction of weapons no longer needed for ATF personnel, received an influx of firearms after the ATF decided to change its standard-issue service weapons.¹ According to certain sources and news reporting,² a security guard at the facility stole approximately 600 firearm parts. This security guard then sold these firearm parts, valued roughly in excess of \$70,000, through the internet.

We respectfully ask that your office provide the following information:

1. Please list and describe all firearms or firearm parts stolen from the ATF Martinsburg facility as part of this incident.
2. Please identify all individuals associated with this incident.
 - a. For each individual, please provide their name, title/s, years of service with or for ATF, and a list of all prior assignments within ATF/Department of Justice.
3. Did ATF perform a vault inventory due to this incident? If yes, what was the result?
4. Has ATF recovered the property stolen in this incident? If so, please provide the inventory of what was recovered. If not, how does ATF plan to recover the stolen property?
5. Did ATF track and produce an accounting of what gun parts were sold and to whom they were sold? If so, please provide the accounting.

¹ It is not clear whether the alleged thefts occurred at ATF's Firearms and Ammunition Destruction Branch and/or Firearms and Ammunition Technology Division.
