

# United States Senate

WASHINGTON, DC 20510

March 6, 2019

The Honorable Mick Mulvaney  
Director  
Office of Management and Budget (OMB)  
725 17th Street NW  
Washington, DC 20503

Dear Director Mulvaney,

We write to request information related to EPA's nationwide PFAS Action Plan and other related actions. The PFAS Action Plan, which EPA released on February 14, 2019, did not include a commitment to promulgate a drinking water standard for PFOA and PFOS. EPA also failed to release its groundwater cleanup guidelines for PFOS and PFOA in tandem with the PFAS Action Plan, despite announcing<sup>1</sup> that it would complete these guidelines by Fall, 2018.

The Office of Management and Budget, the Department of Health and Human Services, and Department of Defense all participated in the interagency review of EPA's PFAS Action Plan. It is also our understanding that the groundwater cleanup guidelines for PFOS and PFOA have been held up at OMB since August 2018 due to an interagency dispute<sup>2</sup> related to how stringent the guidelines should be. Finally, we have also been informed that in at least one instance, the United States Air Force has diverted funds intended for a site cleanup of non-PFAS contamination to PFAS-related cleanup efforts.

So that we may better understand the views of the Agencies involved in the finalization of the PFAS Action Plan and groundwater cleanup guidelines, please provide us with responses to the following requests by March 22, 2019:

1. Copies of all documents exchanged between OMB and EPA regarding the PFAS Action Plan or the groundwater cleanup guidelines for PFOS and PFOA.
2. Copies of all documents exchanged between OMB and DOD regarding the PFAS Action Plan or the groundwater cleanup guidelines for PFOS and PFOA.
3. Copies of all documents exchanged between OMB and HHS regarding the PFAS Action Plan or the groundwater cleanup guidelines for PFOS and PFOA.

For purposes of this letter, "documents" includes, but is not limited to, comments, notes, emails, legal and other memoranda, white papers, scientific references, letters, telephone logs, text messages, meeting minutes and calendars, photographs, slides and presentations. In the case of
